ABOUT ME

I intend to be a part of an organization where i can constantly learn and develop my technical and management skills and make best use of it for growth of the organization. I look forward to establishing myself by adapting new technologies as well.

WORK EXPERIENCE AND PROJECTS

2020 - 2021

WEB-DEVELOPER INTERNSHIP AT INTERNATIONAL INSTITUTE OF INFORMATION TECHNOLOGY, HYDERABAD
This project was by the MHRD(Ministry of human research development) Government of India and with the help of my project, many students who don't get the opportunity to go to school can learn computational linguistics. In this project, I made a dynamic website with the aim of teaching students who do not have the facilities of college and want to learn about computational linguistics.

2020-21

JAVASCRIPT MINI PROJECT
I build a strong password generator with the help of Javascript. It my password generator you can generate password based on your choice like password strenght and lenght.

2020-21

CHATBOX FOR PERSONAL AND BUSINESS CHATS
This project is based on javascript, jquery, ajax and php. With the help of these technologies i developed a chatbox for chatting.

2020-21

COMPLETE PERSONAL WEBSITE
I have created my own personal website with the help of HTML,CSS,Javascript and bootstraps, in which i put all my details about my education and carrier.
